

Putting the puzzle together

XXXI Symposium

The International Society of Dermatopathology

Barcelona, October 21-23, 2010

Final Program

Dear colleagues,

It is an honor and a pleasure to invite you to the XXXI Symposium of the ISDP, to be held in Barcelona on October 21-23, 2010.

Knowledge of dermatological disease is steadily advancing in multiple fronts. Putting together all the pieces of newly generated information is an arduous task in need of facilitation.

Our Symposium program will tackle a variety of currently hot subjects in an attempt to integrate new developments in their basic, clinical, pathological and therapeutic aspects.

With that goal in mind, we encourage you all to share your experience with us in a multidisciplinary environment soundly upheld by the pivotal role of Dermatopathology.

We look forward to meeting you in Barcelona.
